Profile

A seasoned developer specializing in frontend and mobile platforms, adept at translating creative concepts into carefully crafted, responsive websites, and feature-rich applications for both Android and iOS platforms.

Skills

JavaScript | TypeScript | React | React Native | Redux | TailwindCSS

HTML5 | CSS3 | SCSS | Git & Github | Figma

Professional Experience

Frontend Developer (Intern)   2023
Zuri Team (HNGx Internship)   Remote
- Developed a dynamic and responsive movie streaming website tailored for movie enthusiasts, employing React, Tailwind CSS, Figma, Git and TMDB API.

- Engineered a feature-rich image gallery with user authentication capabilities using React, Supabase for authentication, DnD library and Tailwind CSS.

- Implemented a landing page for a Chrome extension using React, Tailwind CSS, Git, and Figma.

Projects

D-MarketPlace 🔗
Developed an online e-commerce platform incorporating a seamless payment gateway, user account management, authentication, and an intuitive cart system.
- Skills: React, Redux, TailwindCss, Firebase and Stripe.

My MovieBox 🔗
A website engineered for movie enthusiasts, offering a preview of the latest trends and trailers in the cinematic world before they hit the theaters.
- Skills: React, TailwindCss and TMDB API.

The Wild Oasis vacation house management App 🔗
An application built for a resort to strategically prioritize customer management and reservations, resulting to significant enhancements in customer experience, retention, and a noteworthy increase in overall sales.
- Skills: React, Supabase, Recharts and Styled-Components.

Fast Pizza App 🔗
A website catering to pizza enthusiasts, offering a seamless ordering, delivery management, and payment experience from the convenience of their homes. This innovation can result into a significant surge in orders per hour and a notable improvement in sales numbers monthly.
- Skills: React, Redux and TailwindCss.

Education

Mechanical Engineering (B. Eng.)   2014 – 2018
University of Ilorin, Nigeria.

Certificates

- Responsive Web Design 🔗

- JavaScript Algorithms and Data Structures 🔗

- The Ultimate React Course 2023: React, Redux & More 🔗

- React Native - The Practical Guide [2023] 🔗

Abilities

- Creating websites that are both responsive and scalable, ensuring an exceptional user experience.

- Building of mobile applications for both Android and iOS platforms.

- Proficient in implementing functional and reusable components.

- Enhancing website accessibility through optimization for improved performance.

- Integrating APIs to facilitate seamless communication between the system, backend, and external servers.

- Demonstrates exceptional skills in debugging and effective error handling.

Personal Qualities

- Demonstrates a high level of confidence in interpersonal relationships and maintains an open-minded approach to constructive criticism and feedback.

- Exhibits strong focus and a results-oriented approach, with great attention to detail.

- Passionate about enhancing skills through continuous learning and dedicated research.

- Demonstrates a strong commitment to achieving team goals and fostering continuous improvement.
